PROFILE

Fullstack developer with a passion for frontend development, UI and UX.

EMPLOYMENT HISTORY

Full stack developer at Gluework, Tel Aviv
March 2022 — Present

Responsible for an end to end development of a wizard which lets users build policies - the app's main functionality.

- Developed components with React, Typescript, xstate and tailwind in the frontend
- Wrote with Node Typescript, jest, prisma and remix in the backend

Full stack developer at Otorio, Tel Aviv
July 2020 — March 2022

- Developed features on the backend with python in a microservices architecture using dockers, mainly focused on classifying network assets, creating alerts and insights
- Wrote queries with Sqlalchemy to a PostgreSQL DB
- Used RabbitMQ message queue for microservices async communication
- Wrote unit tests using pytest and jest and e2e tests using cypress
- Was responsible for adding jest and storybook for the frontend
- Developed frontend components using React combined with less as a CSS preprocessor
- Worked in an agile environment using SCRUM processes

EDUCATION

Full Stack Development, Infinity Labs, Ramat Gan
April 2019 — May 2020

One-year full time course (8:30 AM - 18:30 PM), covering a wide variety of programming topics such as data structures, networking, OOP as well as hands on experience with projects in C, Java, Javascript, React and Node.

Web track, she-codes, Tel Aviv
August 2018 — January 2019

Participated in weekly meetings in Google and Soluto offices where I got exposed to web development principals and created websites as side projects using HTML, CSS and JavaScript.

B.A in Psychology, IDC, Herzliya
October 2015 — August 2018

- Graduated as an Honor student with an average of 95.
- Psychometric score – 701
